## Libraries for Setup

```
library(MASS)
library(mvnfast)
library(ggplot2)
library(plotly)
```

## Loading data

```
riot <- read.csv("online_gaming_behavior_dataset.csv")
head(riot, 5)
```

```
##   PlayerID Age Gender Location GameGenre PlayTimeHours InGamePurchases
## 1     9000  43   Male    Other  Strategy     16.271119               0
## 2     9001  29 Female      USA  Strategy      5.525961               0
## 3     9002  22 Female      USA    Sports      8.223755               0
